# WHAT IS A EUROPEAN CAPITAL OF CULTURE?

Esch-Belval

Since 1985, the title “European Capital of Culture” has been awarded annually by the European Union. The goal of the European Capitals of Culture is to highlight the diversity of European culture, promote encounters and communicate European values. Cultural aspects of a city, a region or even the entire country are to be made more accessible to the European public. The title is intended to support sustainable cultural initiatives and contribute to the development of the places through increased national and international attention. To date, more than 60 cities within the European Union have been awarded the title as part of the “European Capital of Culture” initiative, and at least two cities have been awarded the title since 2001.

## ABOUT ESCH2022

In 2022, Esch-Alzette, as a city and commune, will take on this important title along with ten other southern municipalities and eight municipalities in France, in the “Communauté de Communes Pays Haut Val d’Alzette” (CCPHVA). The social and cultural diversity of this region, its landscape and inhabitants were strongly influenced by the industrial past. The European Capital of Culture project Esch2022 is intended to provide an impetus to redevelop the cultural power of the region. Particular emphasis is placed on the participatory nature of the project: the population in the region is to play an active role in shaping the European Capital of Culture project. In addition to Esch-

Alzette, Kaunas in Lithuania and Novi Sad in Serbia, whose programme planned for 2021 have also been selected as Capitals of Culture for 2022.

## CULTURAL PROGRAMME

**an enriching cultural programme...** Surrounding the central theme REMIX Culture, the programme developed by Esch2022 is closely linked to the current relevance and state of the region of the European Capital of Culture. Through this cultural programme, we want to tell the story of a cross-border region in the heart of Europe and follow the transformation from its industrial past to a knowledge-based society, discuss contemporary topics like identity (REMIX Yourself), sustainable development (REMIX Nature) and European perspectives (REMIX Europe), propose innovative solutions through art and culture (REMIX Art), build a social project based on inclusion, participation, and sustainability.

**... made of numerous and diverse projects** The call for the various projects is a clear reflection of the cultural diversity in the region. It also shows a clear commitment to art and all its forms of expression. 130 different projects have been selected to be part of the Esch2022 programme. The different projects, by artists, associations, institutions, and communities, offer a balanced and comprehensive range of artistic disciplines.

## REMIX OPENING

**Experience Esch2022’s unique opening ceremony!**

Esch2022’s official opening ceremony will take place on February 26, 2022. Numerous activities (a digital inauguration, concerts, video mapping) are all planned to take place in the city centre of Esch-Alzette and in Belval. Even before the grand opening takes place, the inhabitants of the region can help shape the festive inauguration of Esch2022 through workshops that have been set up for the occasion.

## MINETT REGION

**Visit a region as diverse as its people**

Discover how the Minett, a former industrial region, is transforming into a fascinating place where

tradition and innovation have come together to create a region full of cultural diversity, a center for science, unique nature reserves, an industrial heritage and international gastronomy.

## UNESCO “MAN AND BIOSPHERE”

The Minett was awarded the UNESCO label “Man and Biosphere” (MAB) in October 2020. Experience the unique journey through The Land of the Red Earth, with its special landscapes, either by foot along the hiking trails or by bike. Don’t wait, explore the region of Esch2022 as early as 2021!

## TOURISM

**Virtual Reality – Urban Time Travel Belval**

Fancy a journey through time? Experience the history of Belval in real-time!

In partnership with the start-up company Urban TimeTravel S.A., Esch2022 is developing a Virtual Reality bus tour that lets locals and tourists experience the eventful history of the Belval area. Thanks to a virtual journey through time, passengers will be able to immerse themselves in the eventful history of the area and discover the municipality of Sanem and the city of Esch-Alzette under a completely new light.

A GPS-tracked vehicle will take participants to various historical locations. Through their VR glasses, they will see the former appearance of the area and witness events that once happened there.

## MINETT TRAIL

The Minett Trail is a hiking trail across the 11 Pro-Sud municipalities. This exceptional 90-kilometer trail, launched by the South Regional Tourist Office (ORT Sud) in collaboration with Minett UNESCO Biosphere and with the support of the Ministry of the Economy – General Directorate of Tourism, will connect the emblematic tourist spots of the Minette region.

Unusual gites along the route will allow hikers to enjoy on-site accommodation. Following an architectural competition organised by the Order of Architects and Consulting Engineers (OAI), a former

Esch-Belval

worker’s house in Lasauvage, a train wagon at Fond-de-Gras, the small tower at the entrance of the Parc Merveilleux in Bettembourg and other spaces will be renovated to accommodate walkers in 2022.

## MINETT CYCLE TOUR

The Minett Cycle Tour is a nearly 150-kilometre-long tourist cycle path that will be created as part of Esch2022 in cooperation with the regional tourist office. The path aims to promote local tourism, national cycle tourism and sustainable mobility. It will be signposted and will open to the public as from 2022, symbolically connecting the municipalities in the region. It is divided into 3 circular routes, enabling cyclists to choose and combine routes according to their ability, and catering to beginners and advanced riders alike.
